

LOCKING POWER CORDS

Guards against accidental disconnection of computers, servers and most electrical appliances.

Suitable for use with 'ANY STANDARD' IEC inlet

- Protects appliances that are vulnerable to vibration
- Connector cannot be accidentally pulled or vibrated out of the inlet

How it works!

- Push the connector into the standard IEC inlet and it is locked in position
- Connector **CANNOT** be accidentally pulled or vibrated out of the inlet
- Slide back the 'red' tab to release and remove connector from inlet
